PROFESSIONAL SUMMARY

Lead Software Engineer with 11+ years of experience designing and delivering enterprise-scale SaaS products, distributed systems, and cloud-native applications. Proven expertise in solution architecture, system design, microservices, event-driven architectures, and product development. Experienced in leading engineering teams, mentoring developers, and driving technical strategy for business-critical platforms serving global customers.

CORE COMPETENCIES

Solution Architecture, System Design, Software Architecture, Product Development, Multi-Tenant SaaS Platforms, Distributed Systems, Microservices Architecture, Event-Driven Architecture, Cloud-Native Applications, Technical Leadership, Team Mentoring, Agile Delivery, CI/CD, Enterprise Integration, Stakeholder Management

TECHNICAL SKILLS

Java, Spring Boot, React, Angular, REST APIs, Microservices, Apache Kafka, Microsoft Azure, Docker, Jenkins, CI/CD, SQL, PostgreSQL

PROFESSIONAL EXPERIENCE

Blue Yonder India Pvt Ltd, India | Lead Software Engineer | Jul 2024 – Present

- Lead the design and development of a large-scale Transport Optimization SaaS platform used by global enterprises.
- Architect multi-tenant microservices handling high-volume transportation and logistics data.
- Designed the architecture for a carrier bid management platform that transforms carrier bids into standardized tariff structures.
- Introduced Apache Kafka-based event-driven processing to improve scalability and reliability.
- Mentor a team of 5 software engineers through architecture reviews and technical coaching.

- Partner with Product Management and UX teams to define product capabilities.
- Drive CI/CD automation, architecture governance, and engineering best practices.
- Design cloud-native solutions on Microsoft Azure.

People Tech Group | Senior Software Engineer | Jan 2023 – Jul 2024

- Led technical design activities and stakeholder discussions.
- Developed enterprise applications using React, Java, and Spring Boot.
- Built RESTful APIs and backend services.
- Designed databases and CI/CD pipelines.
- Resolved production-critical issues through root-cause analysis.

Walmart Global Tech | Software Engineer | Jul 2021 – Jan 2023

- Developed REST APIs and React/Redux/Next.js applications.
- Enhanced CI/CD pipelines and automation.
- Resolved integration challenges across enterprise systems.

BNP Paribas | Senior Software Engineer | Aug 2020 – Jul 2021

- Performed feasibility studies and solution design.
- Developed Spring Boot and Angular applications.
- Built monitoring solutions and improved code quality using SonarQube.

Cognizant | Software Developer | Apr 2018 – Aug 2020

- Performed application enhancements and production support.
- Conducted root-cause analysis for critical incidents.

Accenture | Software Engineer Associate | Sep 2014 – Feb 2018

- Developed web applications using HTML, CSS, JavaScript, and jQuery.
- Built backend services using Spring MVC and JDBC.

EDUCATION

Master of Engineering (M.E.), Madras Institute of Technology, Chennai, India (2012–2014)

Bachelor of Engineering (B.E.), MEPCO Schlenk Engineering College, Sivakasi, India (2008–2012)

LEADERSHIP HIGHLIGHTS

11+ years of software engineering experience across product, retail, banking, and supply-chain domains.

Technical leadership experience mentoring engineers and driving architecture decisions.

Experience designing scalable SaaS products and multi-tenant platforms.
